INTRODUCTION

The beginning of the academic year 2016 -2017 will mark the opening of the eighteenth year of the Postgraduate Programme in Southeast European Studies. This period has seen the transformation of the area from a war zone to a region on its way to integration into the European Union. The multinational, multi-disciplinary Postgraduate Programme in Southeast European Studies was founded during the Kosovo crisis, and has been part of that transition. Created in 1999 as part of the Royaumont Process, in its first years the Programme was supported by the Stability Pact for Southeastern Europe; it has since aimed at facilitating crossborder academic and scientific cooperation, bringing together students from all over the region and beyond, and promoting mutual understanding and good neighbourly relations. Today, it functions as an autonomous Postgraduate Programme of the Faculty of Political Science and Public Administration of the University of Athens.

SCOPE & OBJECTIVES

The Programme is addressed to graduates in the social sciences and humanities. Based on its interdisciplinary character, it aims at providing a thorough understanding of the key social, political, and economic issues of Southeastern Europe. It has an excellent student-teacher ratio (four to one), and a strong international character, actively encouraging the participation of students from around the world. In addition to its academic aims, the Programme offers a unique opportunity for students and professors with different backgrounds and experiences to spend an academic year in Athens, learning about Southeastern Europe with and from each other.

DURATION & LANGUAGE OF INSTRUCTION

The duration of the programme of studies is twelve calendar months. The exclusive language of instruction and examination on the Programme is English. All assignments are completed in English.

ACCREDITATION

Master of Arts (MA) in Southeast European Studies (75 ECTS Credits).

PROGRAMME SYLLABUS

The programme of studies includes coursework and research. Two semesters of taught classes are followed by the research and writing of the postgraduate dissertation (from June to end of September).
